JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

## SANITARY REPORTS FROM OTHER PORTS.

### AUSTRIA.

### *Plague in Trieste.*

A message just received from the United States consular bureau announces the appearance of plague in Trieste.

### BRAZIL.

### *Plague in Santos.*

Reports having been received that plague had broken out at Santos, Acting Assistant Surgeon Havelburg was directed to proceed from Rio de Janeiro to Santos for the purpose of investigating the matter. He reports November 4, that the disease has been confirmed by bacteriological examination, and that there have been 18 cases and 6 deaths.

### *Sanitary report from Rio de Janeiro and the State of Sao Paulo.*

RIO DE JANEIRO, *September 27, 1899.*
